<b>Target version:</b>			
<b>Affects version:</b>	3.6.2		
<b>Description</b>			
<p>I work with ubuntu 16.04 xenial and I use audacious for a long time, it is my favorite music player.</p> <p>Today I installed software to listen to Internet stations, then I realized that Audacious was sending the following error message: Error when opening <a href="http://19193.live.streamtheworld.com:80/WRADIOAAC_SC">http://19193.live.streamtheworld.com:80/WRADIOAAC_SC</a>: 403 Forbidden.</p> <p>I uninstalled the streaming and audacious radio software by erasing all the configuration files and the libraries, I restarted the computer, I cleaned with autoremove all the garbage and reinstalled audacious, but continued to send the same error message: Error when opening <a href="http://19193.live.streamtheworld.com:80/WRADIOAAC_SC">http:// 19193.live.streamtheworld.com:80/WRADIOAAC_SC</a>: 403 Forbidden</p>
