

## Audacious - Bug #812

### Buffer overflow detected.

July 30, 2018 09:35 - Ali Cherif Med Fawzi

<b>Status:</b>	Rejected	<b>Start date:</b>	July 30, 2018
<b>Priority:</b>	Minor	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Affects version:</b>	3.9		

#### Description

Failure to start with the message \* **buffer overflow detected** \*,  
Only change from last working state was adding song(s) to playlist(s) before poweroff,  
so I tried cleaning .config/audacious/playlists/ and it worked.  
rookie mistake : didn't backup the playlist files :(

- the following deps libcue,libfluidsynth,libsdlplayfp,libwavpack were missing on my system at the time (Arch distribution).
- the stack trace provided is the last before succesful start, after the missing libs mentioned were installed.

#### History

##### #1 - July 30, 2018 15:01 - John Lindgren

Please install debug symbols for audacious and audacious-plugins, then regenerate the backtrace.

##### #2 - July 30, 2018 18:08 - Thomas Lange

- Affects version 3.9 added
- Affects version deleted (3.9.1)

Since you use Arch, this how-to may be useful:  
[https://wiki.archlinux.org/index.php/Debug\\_-\\_Getting\\_Traces](https://wiki.archlinux.org/index.php/Debug_-_Getting_Traces)

##### #3 - July 31, 2018 08:09 - Ali Cherif Med Fawzi

I can't reproduce the bug.

##### #4 - July 31, 2018 15:09 - John Lindgren

- Status changed from New to Rejected

Closing then.
