

Audacious - Support #888

lyricwiki plugin fails to connect (Windows-specific)

Target version:			
Affects version:			
Description			
I'm getting this message ONLY on my windows 10 partitions (and seven too) when I use the lyricwiki plugin:			
"-Error			
Incapaz de traer http://lyrics.wikia.com/api.php?action=lyrics&artist=Creed&song=Torn&fmt=xml "			
On my linux partition the player and the plugin works perfectly fine.			
I also started a topic on the forums without success.			

History

I see this too. The detailed error is:

```
ERROR neon.cc:542 [open_request]: <09a3ae80> Could not open URL: 1 (0)
ERROR neon.cc:545 [open_request]: <09a3ae80> neon error string: Could not read status line: connection was closed by server
ERROR neon.cc:756 [fopen]: <09a3ae80> Could not open URL
```

Not sure why this would occur only on Windows. Especially since the neon plugin seems to be accessing other HTTP sites just fine. It might take some Wireshark tracing to figure out what's different; I don't have time to do this though.

Incapaz de traer <http://lyrics.wikia.com/api.php?action=lyrics&artist=Creed&song=Torn&fmt=xml>"

On my linux partition the player and the plugin works perfectly fine.

I also started a topic on the forums without success.

<http://lyrics.wikia.com> became <https://lyrics.fandom.com/>

The address for recuperate the api is thus false.

- *Subject changed from lyricwiki plugin unable to... to lyricwiki plugin fails to connect (Windows-specific)*

#5 - August 22, 2019 02:09 - John Lindgren

The plugin has been updated to use fandom.com and the same error still occurs.

It's a bug alright, meanwhile I'm using audacious on my Linux partition without problems at all, I hope you can fix it for the rest of Window's users, best regards!

#7 - October 29, 2019 02:48 - John Lindgren

- *Status changed from New to Closed*

Removed LyricWiki plugin from the Win32 builds for 4.0-beta1.
