<b>Target version:</b>			
<b>Affects version:</b>	3.2.1		

#### Description

In the GTK interface, if you have more than one playlist, and you play a track from playlist 1, then you go to playlist 2 and play a track, and then you go back to playlist 1, you'll notice that the first track is still in bold, which makes it look like it's playing, even though it's not

Just a minor bug.

#### History

- Status changed from New to Rejected

This is by design. Not a bug.
