

Audacious - Support #927

Stream takes unusually long to resume after system restart

December 08, 2019 14:05 - sojus nik

Status:	Closed	Start date:	December 08, 2019
Priority:	Minor	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Affects version:	3.10.1		
Description			
<p>I've noticed that a stream takes unusually long to resume after a system restart while Audacious was playing in the background.</p> <p>To reproduce, play a stream (f.i. http://nature.radio.mynoise.net) and restart your system. The next time Audacious opens, it can take up to several minutes before the stream continues playing. But if Audacious is closed normally, then the stream continues as expected within seconds after launching Audacious.</p> <p>Happens on Ubuntu 19.04.</p>			

History

#1 - December 08, 2019 14:58 - John Lindgren

I can't reproduce. Please attach the log from "audacious -V" when it takes a long time to restart.

#2 - December 13, 2019 12:58 - sojus nik

Played a bit around and realized that resuming also takes long, when there is a longer break, tested it from 20 seconds to 10 minutes, between a normal Audacious shutdown and upon reopening. If the break is shorter approximately 20 seconds, then resuming a stream at the start of Audacious takes several seconds, otherwise it takes 1 or 1½ minutes on average.

This log occurred after Audacious was playing a stream in the background while Ubuntu was restarted. I've launched Audacious after the desktop has fully loaded. The stream resumed around 1 minute after Audacious was opened.

```

#3 - December 13, 2019 16:01 - John Lindgren

I don't see anything abnormal in your logs. Can you try changing a few settings to see if any of them helps the stream to start faster?

1. Disable crossfade
2. Under Audio -> Output Settings, make sure the buffer size is set to no more than 500 ms
3. Under Plugins -> Input -> MPG123 Plugin -> Advanced, make sure that "Use accurate length calculation (slow)" is unchecked

Also, is it possible for you to install 4.0-beta1 to see if it is any better?

I'll wait for you to report back, and we'll go from there.

#4 - January 14, 2020 17:48 - John Lindgren

- *Status changed from New to Closed*
- *Tracker changed from Bug to Support*

Closing due to lack of response.
