

Audacious - Bug #942

Time Slider Doesn't Show on Some Files

March 15, 2020 16:14 - Chris Bristol

Status:	Rejected	Start date:	March 15, 2020
Priority:	Minor	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Affects version:			
Description			
The header bar shows on most audio files, but some FLAC files it doesn't. I can't upload the file because it is too big. Editing it to shorten it changes the file format and it works, so is not helpful.			

History

#1 - March 15, 2020 16:26 - Chris Bristol

- File *AudioRecorder.flac* added

I have created a short example and uploaded it. Interestingly the problem files I have found so far come from AudioRecorder, so it may be to do with the way that application creates its files - missing a file-end marker perhaps. If someone could define the problem I could report it as an error to AudioRecorder.

#2 - March 23, 2020 13:37 - John Lindgren

- Status changed from *New* to *Rejected*

The file does not have a valid STREAMINFO block (https://xiph.org/flac/format.html#metadata_block_streaminfo). Not a bug.

#3 - March 23, 2020 14:20 - Chris Bristol

"The file does not have a valid STREAMINFO block..."
I'll report that information to AudioRecorder.
