Target version:	4.0.3		
Affects version:	4.0, 4.0.1, 4.0.2		
Description			
<p>First off, this is my first post on here and I haven't looked into the source much yet, so I am not sure which category to assign this to. Sorry :/</p> <p>Upon upgrading Audacious to 4.0.2, I've noticed that the player (I use the classic Winamp skin) would not stay on top anymore like it did before. I blamed this on the configuration reset during the upgrade (as the player came up with the modern skin at first) but I could not find the option to enable stay on top anywhere.</p> <p>And sure enough after rolling back to 3.10.1, the option is back where it should be in Right click > View > Always on Top.</p> <p>Could you please re-implement this feature into 4.0.2, or give insight as to why this option was removed?</p> <p>Best regards</p>

The Qt port of the Winamp Classic interface is missing several features still. As mentioned in the release notes, you can continue to use the GTK2 version for now.

#3 - April 26, 2020 06:25 - Jim Turner

Depending on what window-manager you're using, you may be able to custom-set this there.

Regards,

Jim

@John: Please check the attached patch. I didn't bother about supporting older Qt releases, since 5.9 was released in 2017 already.

#6 - April 27, 2020 21:31 - John Lindgren

Looks good to me.

- *Target version set to 4.0.3*
- *Status changed from New to Closed*

I went ahead and pushed this to both master and 4.0.x. I also made a slight change to remove the Qt 5.9 requirement (though I haven't actually tested with and older version either).

Thanks!
