<b>Description</b>			
Hi,			
ReplayGain in .aac files tagged (using aacgain v. 1.9) seems to not being recognized.			
It happens as well in files with R128_TRACK_GAIN tag (using opus-tools 0.1.10 and r128gain v1.0.1) in .opus files.			
I'm not sure if these two requests should be together: sorry if they shouldn't.			
Thanks! Loving the player since years ago!

Hi,

ReplayGain in aac (.m4a) files tagged (using aacgain v. 1.9) seems to not being recognized.

It happens as well in files with R128\_TRACK\_GAIN tag (using opus-tools 0.1.10 and r128gain v1.0.1) in .opus files.

I'm not sure if these two requests should be together: sorry if they shouldn't.

Thanks! Loving the player since years ago!

Same issue here with opus files and the R128\_TRACK\_GAIN tag. The player is unusable for me without this.
